In conjunction with
The Aromas Fire Protection District & the Aromas Water District

2020 Aromas Chipper Program

April 1 – May 17, 2020

Residents living in the Aromas area are invited to participate in this year's Residential Chipper Program. Under this program, property owners who remove vegetative material from their property to reduce the wildland fire hazard can have the material chipped and disposed of **at no cost**. The drop off location will be in the designated area next to the Aromas Fire Station in the open lot. You can pick up wood chips at the site and use them for moisture retention and mulch.

Program guidelines:

1. All vegetative material *must* be cut and hauled to the lot next to Aromas Fire Station to be chipped between April 1st and May 19th. Please pile brush with cut branches facing out.
2. No loose material (leaves, grass, sod or firewood chunks). Nothing larger than 4 inches in diameter can be chipped. Anything that cannot be readily chipped will not be accepted under this program.
3. No poison oak, metal objects or wire. These materials represent a safety hazard, and will not be accepted.
4. **No additional piles will be allowed after May 17, 2020**
5. **If you have further questions, please call Aromas Fire Station at (831) 726-3130 or visit them at 492 Carpentaria Rd., Aromas, CA**

Illegal Debris Dumping

Please remember it is illegal to dump debris, vegetation or garbage into any waterway or easement.

This program is funded by the California Department of Forestry and Fire Protection using California Fire Prevention Fees. This program is also sponsored by the Aromas Tri-County Fire Protection District and the Aromas Water District.

Remember: The Residential Chipper Program is FREE!

"Reducing the wildland fire hazard, one chip at a time!"
